## PROJECTS

### Konnecta - FullStack Social Media Platform

Mentor: Self Mentored | Team Size: 1

Key Skills: React.js Node.js MongoDB Express.js vercel render mern JWT

Built a full-stack social media app where users can sign up, log in, share posts, like and comment, and connect in real time. Added image uploads with Cloudinary, secure authentication using JWT, and live notifications powered by Socket.io. Designed a clean, responsive React interface and deployed it seamlessly with Render (backend) and Vercel (frontend).

### Smart Resume Analyzer

Mentor: Self Mentored | Team Size: 1

Key Skills: Java Spring Boot MySQL React.js JWT Deployment NLP LLM

Developed a full-stack platform where users can upload resumes, add job descriptions, and instantly generate skill/experience/education match scores. Implemented JWT auth, resume/JD parsing, and a modern Vite-React UI with a structured analysis dashboard.

### Python Automation Suite – API Testing, UI Testing & GitHub Actions CI

Mentor: Self Mentored | Team Size: 1

Key Skills: Python pytest playwright

Project Link: <https://github.com/Sudarshan431/api-automation.git>

Developed three complete automation projects:

- (1) API Automation Framework with Pytest & Requests,
- (2) UI Automation Suite using Playwright with Page Object Model, and
- (3) GitHub Actions CI pipeline executing all tests automatically on every push.

Demonstrates end-to-end automation skills covering backend, frontend, and CI/CD integration.
